Dear Customer,

POOLVER SAN GIORGIO a company which operates since 1993 with the trade name **COLORE**, is changing "direction". Through this turning-point, we are reconsidering our position in the "discount" powder coatings market scenario: we do believe that the market needs to decline some preconceptions and we are ready to respond in a quick time to the more particular requests, increasing the quality standards in the meantime. For this reason, the company is committed to invest into human resources for the R&D and into hi tech plants, in order to fulfil these requirements. In fact **POOLVER SAN GIORGIO** is able to satisfy your requests of colours and effects even from minimal batches of 50/60 Kg.: consequently we are contributing in supplying you with prompt and valid solutions to Your problems. We are presuming to represent:

An effects Leader
A small batches Specialist
A service Partner
